

Sampsons

St. Petersburg, Russia

July / Aug '08

Здравствуйте, (hello),

I returned from my summer trip from Russia, Finland, and Estonia with lots of information to see where God would have us start a church among the Russian people. Please continue about this decision. It was a good trip. I was also involved in street evangelism, preaching in Russian, and fellowshiping with Russian pastors.

My wife, Lisa, is having some health issues being ill for over a year and the doctors don't know what it is. Please pray for her as the doctors determine what she needs. She has had lots of tests with several turning out bad, so she has several specialist appointments to determine why and what needs to be done. They have found that her liver and digestive system are not working properly but don't know why. Please pray that God would heal her or let the doctors find the problem. As soon as we get release from the doctors we can return. We are hoping to get the clear to leave by Jan. 09. Please pray for Lisa and quick healing.

Praises: Good visit gathering lot of information to determine where to start our first church, preached in Russian, renewed relationships with Christian and non- Christian Russian friends.

Request: Lisa's health so we can return, The Russian Bible College and work on a bible college curriculum in Russian

For Lost Russian Souls,
Keith Sampson
